SUBJECT INDEX

Acticoat®, partial-thickness burns, randomized trial, 344
Acute respiratory distress syndrome (ARDS), adult smoke inhalation, 62
Adolescents, burned, intensive social skills training program, 546
Age, influence of, sex and mortality of burn patients, 416
Aircraft crash, Airforce base, burn center management for, 132
Airway, upper, thermal damage to the, 200
American Burn Association (ABA), presentations from 1998 to 2003, trends in research, 397
Amiodarone, cardiac arrhythmias in burn patients, 341
Amputation, high-voltage electrical injuries and, 331
Analgesics, skin grafting procedures, fascia iliaca compartment block, 409
Antimicrobial agents, topical, battlefield-expedient, burn wound sepsis prevention, 357
Axillary burns
  extended grafting and early splinting, 539
  functional outcomes after new approach to, 529

Bacterial translocation, gut barrier and, major thermal injuries, 383
Bacteriological profiling, and antibiotic resistance in burn intensive care units, 488
Battlefield injuries, antimicrobial agents for, 357
Behavioral/emotional problems, preinjury among pediatric burn patients, 369, 371
Blunt trauma, Marjolin's ulcer cause by, burn scars (letter), 459
Body image, assessment for burn survivors, 543
Body water, in children, combined tracer dilution method, 67
Brain atrophy, delayed, injury by high-voltage power lines, 456
Bronchoalveolar lavage, burn patients with ventilator-associated pneumonia, 57
Burn care
  analgesics for skin grafting, 409
  managed, rational approach to, editorial, 14
  national disasters, American Burn Association disaster readiness, 183
  New Zealanders contributions to, 42
  silver dressings, therapeutic efficacy of, 53
Burn centers
  adult campfire burn patients, 440
  burn beds, tracking daily availability of, 174
  disaster response, September 11, 2001, 117
  mass casualties due to disasters, 107
  outpatient care of firefighters, 348
  Southern Turkey, pediatric burn injuries, 327
  treatment for toxic epidermal necrolysis, 33
Burn disasters
  mass casualty incidents and, 107
  preparation and response to, nursing's role in, 166
Burn dressing, Acticoat®, cytotoxicity and antimicrobial activity evaluation, 238
Burn excision, tangential, Versajetä water dissector, 483
Burn injuries: *see also* specific type
  children
    Parenting Stress Inventory (PSI), 446
    perceived stress among parents, 444
  energy expenditures after, 462
  firefighters, burn center study, 3-year review, 348
  host response to, cytokines, 7
  immune response to, gastrointestinal tract, 85
  major, skin allograft and autograft use in treatment of, 471
  malnutrition of elderly patients, 94
  mass disasters and, 102
  massive, social support for survival, 352
  methamphetamine laboratory explosions causing, 228
  occupational, Rhode Island worker's compensation claims, 505
  pediatric, epidemiology of, 327
  self-inflicted, suicide attempts in Athens, Greece, 75
  severe, body water in children during recovery, 67
  size and distress, physical recovery and psychosocial function, 21
  steady decline of, editorial, 13
  ventilator-associated pneumonia and patients with, 57
Burn intensive care unit, bacteriological profile and antibiotic resistance patterns of a, 488
Burn Life Support, combat, military burn-education program for, 162
Burn ointments, moist exposed, efficacy of, 247
Burn prevention
  elderly burn patients with dementia, 267
  scald burns in epileptic patients, 525
Burn shock, hypothermia and, transpulmonary thermodilution measurements, 260
Burn Specialty Team Program, management of serious burns during disasters, 170
Burn trauma
  acute, amiodarone-induced hepatoxicity, 341
  cardiac myocyte accumulation of calcium after, 252
Burn units
  Australia, Bali burn disaster, 125
  Cladophialophora bantiana treated in, 285
  epidemiological study in Kayseri, Turkey, 79
Burn wounds
  full-skin thickness, *Pseudomonas Aeruginosa*-contamination, 430
  minor, herpes simplex infection in, 453

Campfire burns, adult, prevention measures, 440

Car battery, unusual burn injury caused by a, 379
Carbon monoxide, exposure, early morbidity of burn patients, 200
Chemical burns
chemical plant explosions, combined burn trauma disaster, 144
lower airway, combustion of substances generates materials toxic to, 200
Child Behavior Checklist (CBC), behavior problems of burned adolescents, 546
Children
body water in, severe burn injury recovery, 67
burn injuries in Southern Turkey, 327
burns
Parenting Stress Inventory (PSI), 446
perceived stress among parents of, 444
resting energy expenditure *versus* predictive equations in, 464
burn unit study in Kayseri, Turkey, 79
electrical injury, delayed brain atrophy, 456
major burns, inadequate skin graft donor site, 471
minor burn wound, herpetic lesions on, 453
preinjury behavioral/emotional problems among, 369, 371
scald burns, hot spring pools, 288
scald injuries in, 320
Contractures, axillary, grafting and splinting for, 539
Cultured skin substitutes, microbial contamination management, 238
Cytokines, promoting wound healing, inflammatory response to injury, 7

Dementia, elderly burn patients with, 267
Diabetes mellitus, impaired tissue repair, 293
Disaster management
and the ABA plan, 102
combined burn trauma disaster, West Pharmaceutical chemical plant explosion, 144
training burn personnel (editorial), 101
Drug addiction, trends in adult burn patients, 493
Dysphagia, pattern of recovery, thermal burn injury, 233

Editorials
burn and geriatric issues, 93
managed care for burns, 14
serious burn injury, steady decline of, 13
training burn personnel for disasters, 101
Elderly
burned, pre-existing protein energy malnutrition, 94
burn unit care for the (editorial), 93
patients with dementia, burn prevention, 267
Electrical burns
high-voltage, delayed brain atrophy, 456
high-voltage injuries, 331
Endothelial cell levels, circulating, correlation with proinflammatory cytokine increase, 422
Energy expenditure
nutritional regimens for, acute burn injury, 462
resting, *versus* predictive equations, pediatric burn patients, 464
Epilepsy
scald burn in patients with, 525
seizures, scald burns while showering, 526
Extracorporeal membrane oxygenation, adult smoke inhalation management, 62

Facial burns, primer on management of, 2
Fascia iliaca compartment block (FICB), effects of single-shot, skin grafting, 409
Fasciotomy, high-voltage electric injuries and, 331
Federal Disaster Response, Burn Specialty Teams and, 170
Firefighters, burn injuries to, outpatient care, 348
Fire safety, working toward the elimination of residential fire, 434
Flash/flame injuries, adults igniting campfires, 440
Functional Independence Measure
burn rehabilitation process, 530
inpatient rehabilitation centers, 532

Gastrointestinal tract, postburn sepsis, 85
Ginkgo biloba extract, oxidative organ damage improvement, 515
Glucose intolerance, association with *Acinetobacter* infection, 405
Gut barrier function, bacterial translocation and, major thermal injuries, 383

Hands, pressure gloves and functional use of, 363
Head and neck burns
hydrofloric acid (letter), 291
scalds to young children, 320
Health care, quality patient care and optimal outcomes, 529
Hepatotoxicity, rapid acute amiodarone-induced, 341
Herpes simplex infection, minor burn wounds, 453
Hot springs, children receiving scald burns from, 288
Hydration, children, severe burn injuries, 67
Hydrofluoric acid, burns of head and neck (letter), 291
Hypermetabolic response, altering, severe thermal injuries, 194
Hypothermia, burn shock and, transpulmonary thermodilution measurements, 260

Infection
Acinetobacter spp., glucose intolerance in burn patients, 405
host response to, cytokines, 7
Infection control, moist exposed burn ointment use for, 247
Inhalation injury
facial burns and, 2
higher intubation and tracheostomy rates, meth lab patients, 228
Ischemia, impaired wound healing and, 293

Malnutrition
impaired wound healing and, 293
pre-existing protein energy, elderly burn victims, 94
Marjolin's ulcer, acute, single blunt trauma to burn area (letter), 459
Mass casualties
aircraft crash and fire, burn center management for, 132
Bali burn disaster, implications and lessons learned, 125
burn disasters and, 107
outcomes to resources for triage, 478
preparation and response, nursing's role in, 166
regional burn center's disaster response, 117
Station nightclub fire, 141
terrorist attack on Pentagon, 109
West Pharmaceutical plant exposion, burn trauma management for, 144
Matching Assessment of Scars and Photographs (MAPS), assessment tool, reliability testing, 273
Matrix metalloproteinases, nonhealing chronic wounds, 306
Methamphetamine laboratory, explosions at, increasing incidence of burn injuries, 228
Microbial contamination, management of, cultured skin substitutes, 238
Military
base, aircraft crash and fire, mass casualties, 132
combat Burn Life Support training, 162
Mortality, massive burn injury and social support, 352
Myocardial calcium, accumulation of, myocardial injury after burn trauma, 252

National disasters, American Burn Association readiness plan for, 183
Nightclub fires, Station, mass casualties from, 141
Nurses, role in burn disaster and mass casualty events, 166
Nutritional regimens, supranormal diets to match energy needs, 462

OP/PT Forum
Organ damage, thermal injury, effects of Ginkgo biloba extract, 515
OT/PT Forum
axillary burns, 529
evaluation of various scar parameters, 272
Functional Independence Measure, 530
pressure garment gloves, quality study of, 362
Outcomes, long-term, toxic epidermal necrolysis adult survivors, 33

Pain control, partial-thickness burns, acticoat® *vs. silver sulfadiazine, 344*
Partial-thickness burns, acticoat® *vs. silver sulfadiazine treatment for, 344*
Phaeohyphomycotic infection, case report, *Cladophialophora bantiana* treated in burn units, 285
Pneumonia
development of, circulating endothelial cells, 422
ventilator-associated, bronchoalveolar lavage in diagnosis of, 57
Presidential Address, 19
Pressure gloves, quality study of, 362, 363
Psychiatric disorders, preexisting, suicide attempts by burning, 75
Psychiatric history, trends in adult burn patients, 493
Psychological issues
acute burn injury, in-hospital distress, 21
burn survivors in Kayseri, Turkey, 79
Psychosocial rehabilitation, celebrating progress in, 543

Quality of life, acute burn injury, physical recovery and psychosocial function, 21

Rehabilitation
inpatient facility, length of stay of burn survivors, 532
scar contraction by splinting for, 392
Research, trends in, American Burn Association Presentations 1998–2003, 397
Respiratory injury, early-phase, major burns and, 200

Scald burn
epidemiology of, 320
epileptic patients with, 525
epileptic seizures while showering, 526
mortal immersion, children visiting hot springs, 288
Scar contraction, splinting for, rehabilitation measures, 392
Scars
burn, malignant complications of (letter), 459
parameters, evaluation of, 272
reliability testing of a new assessment tool for, 273
Sepsis
burn wound
antimicrobial agents for prevention of, 357
gastrointestinal tract in, 85
death of a severely burned patient with, 502
multi-organ failure and, major thermal injuries, 383
September 11, 2001
Pentagon attack, burn center's experience, 109
World Trade Center, regional burn center's response, 117
Sex hormones, influence the immune response, thermal injuries, 416
Silver dressings, therapeutic efficacy of, 53
Silver sulfadiazine, partial-thickness burns, randomized trial, 344
Skin grafting
contracture prevention, axillary burns, 539
inadequate donor site, major burns, 471
management of facial burns, 2
single-shot fascia iliaca compartment block before, 409
Smoke Alarm Installation and Fire Safety Education (SAIFE), working toward eliminating residential fires, 434

Smoke alarms, programs for distributing, 434
Smoke inhalation
burn edema combined with, degree of lung dysfunction, 207
extracorporeal membrane oxygenation and, 62
Smoking, trends in adult burn patients, 493
Social skills, training program
burned adolescents, 546
validating efficacy of, 543
Social support, massive burn injury patients and, 352
Speech pathology, swallowing evaluation, patterns of dysphagia care, 233
Splinting
contracture prevention, axillary burns, 539
strategies and controversies of, 392
Stress
parents of burned children, Parenting Stress Inventory (PSI), 446
parents of children with large burn injuries, 444
Suicidal attempts, self-inflicted burns, 75

Terrorist acts
Bali burn disaster, 125
burn injuries in, 102
Pentagon attack of September 11, 2001, 109
World Trade Center, burn center response to, 117
Thermal injuries
children, resting energy expenditure, 464
circulating endothelial cell levels and, 422
massive tissue edema after, 207
mortality, sex and age of patients, 416
oxidative organ damage from, 515
pattern of dysphagia recovery after, 233
severe systemic metabolic response following, 194
unusual cause of septicemia and death from, 502
unusual injury by car battery, 379
warfare casualties, burn support for, 151
Thermodilution measurements, transpulmonary, patients with burn shock and hypothermia, 260
Tissue edema, massive, following thermal injury, 207
Topical antibiotics
comparisons of, full-thickness burn wounds, 430
salt $AgNO_2$ for burn care, 53
Toxic epidermal necrolysis, burn center treatment, adult survivors, 33
Triage, mass casualties, defining the ratio of outcomes, 478

US Army Burn Center, Operation Iraqi Freedom, burn support for, 151

Versajetä water dissector, tangential excision tool, 483

Warfare casualties
burn bed capacity for, 174
Operation Iraqi Freedom, burn support for, 151
Workers compensation, occupational burn injuries in Rhode Island, 505
Wound healing
chronic, pathophysiology of, 306
impaired, hypermetabolic response and, 194
models of, 293
moist exposed burn ointment use for, 247
primer in cytokines, 7

Instructions to Publishers

1. Complete and file copy of this form with your postmaster annually on or before October 1. Keep a copy of the completed form for your records.
2. In cases where the stockholder or security holder is a trustee, include in items 10 and 11 the name of the person or corporation for whom the trustee is acting. Also include the names and addresses of individuals who are stockholders who own or hold 1 percent or more of the total amount of bonds, mortgages, or other securities of the publishing corporation. In item 11, if none, check the box. Use blank sheets if more space is required.
3. Be sure to furnish all circulation information called for in item 15. Free circulation must be shown in items 15d, e, f.
4. Item 15h., Copies not Distributed, must include (1) newsstand copies originally stated on Form 3541, and returned to the publisher, (2) estimated returns from news agents, and (3), copies for office use, leftovers, spoiled, and all other copies not distributed.
5. If the publication had Periodicals authorization as general or requester publication, this Statement of Ownership, Management, and Circulation must be published; it must be printed in any issue in October or, if the publication is not published during October, the first issue printed after October.
6. In item 16, indicate the date of the issue in which this Statement of Ownership will be published.
7. Item 17 must be signed.

Failure to file or publish a statement of Ownership may lead to suspension of Periodicals authorization.
